### Team Involvement in Demonstration:

This document records the active participation and roles of each team member during the project demonstration. It ensures that every member contributes meaningfully to the presentation and that responsibilities are distributed fairly and clearly.

| S.No | Team Member Name                     | Role in Demo                       | Section Presented                                             | Contribution Summary                                                                                                                                  | Participation (Active / Passive) |
|------|--------------------------------------|------------------------------------|---------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------|----------------------------------|
| 1    | <b>Pushpa Sree</b>                   | Team Lead<br>Backend Developer, ML | Intro & Architecture Overview, Databases Live Loan Prediction | Walked through the XGBoost prediction logic, form submission, and model accuracy.                                                                     | Active                           |
| 2    | <b>Dharshini</b>                     | Documentation, RBAC                | Dashboards & RBAC                                             | Showcased Admin, Analyst, and Officer roles along with custom database queries.                                                                       | Active                           |
| 3    | <b>Sai Rohith</b>                    | QA , UI / UX developer             | Q&A Session UI Walkthrough & Authentication                   | Answered technical questions from evaluators regarding database security. Demonstrated the responsive UI, secure login/register flow, and animations. | Active                           |
| 4    | <b>Vikyath Reddy</b>                 | Frontend Development               | Presented forms                                               | Created user forms and register forms                                                                                                                 | Active                           |
| 5    | <b>Venkat Kalyan Varma Sangaraju</b> | Presenter                          | Preated to represent our application                          | Explained the problem statement, overall architecture, and backend Flask integration                                                                  | Passive                          |
| 6    |                                      |                                    |                                                               |                                                                                                                                                       |                                  |

### Team Coordination Notes:

| Aspect                                 | Details                                                                                                                                         |
|----------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------|
| Team Leader / Coordinator              | Pushpa Sree                                                                                                                                     |
| Overall Team Coordination Rating (1-5) | 5                                                                                                                                               |
| Any issues during demo                 | Minor delay when loading the first Machine Learning prediction due to local server model initialization.                                        |
| How issues were resolved               | eamlessly handled by the presenter pausing to take a quick question from the audience while the model loaded into memory, ensuring no dead air. |
