

Project Demo Planning

Date	15 March 2026
Team ID	XXXXXX
Project Name	Smart lender
Maximum Marks	1 Mark

Project Demo Planning:

A well-structured demo plan ensures that the team presents the project effectively, covering all key aspects in a clear and organized manner. This document outlines the plan for demonstrating the project, including the flow of the demo, key features to highlight, and responsibilities of each team member.

S.No	Demo Section	Description	Duration (mins)	Responsible Member
1	Intro & UI Walkthrough	Presenting the home page, the problem of manual loan delays, and the AI value proposition of Smart Lender.	2 mins	Team Lead / Presenter
2	Secure Registration	Demonstrating the signup process, secure password handling, and the modern split-screen UI design.	2 mins	Frontend/Backend Dev
3	Live Loan Prediction	Acting as a normal user: filling out the financial form and receiving a real-time ML prediction with animations.	3 mins	ML Engineer / Presenter
4	Architecture Overview	Briefly explaining the Flask backend, SQLite database schema, and the XGBoost model integration.	2 mins	Team Lead
5	Analyst & Officer Views	Showcasing the hierarchical dashboards, individual prediction history, and global reporting features.	2 mins	Full-Stack Developer
6	Admin Dashboard (RBAC)	Logging in as Admin, demonstrating Role-Based Access Control, and showing user management features.	2 mins	Backend Developer

Demo Flow Summary:

Step	Activity	Notes
1	Introduction & Problem Statement	Explain how manual loan approvals are slow and biased. Introduce Smart Lender as an AI-driven, transparent, and fast solution.
2	Solution Overview	Provide a high-level overview of the tech stack: Python, Flask backend, SQLite database, and the XGBoost machine learning model.
3	Live Feature Demonstration	Walk through the complete user journey: Registration -> Login -> Loan Form Submission -> ML Prediction Result -> Admin/Analyst dashboards.
4	Q&A Session	Open the floor to evaluators to ask questions regarding the tech stack, ML accuracy, UI/UX choices, and RBAC security.
